

# The Microtill Cloud

## Cloud based EPOS back office software

- + Powerful Dashboard Reports
- + Accessible on any web-enabled device
- + View sales data from anywhere, anytime
- + Product changes happen instantly

Access your sales data  
from anywhere, anytime

### Sales Management

Stay in control of your business and maintain your own product file. Ensure your revenue is being maximised for each of your products by introducing scheduled promotions.

### Dashboard Reports

View live sales as and when they happen. Microtill's customisable dashboard provides you with an up to the minute overview of how your business is performing.

### Stock Control

Clean and contemporary stock control suite that doesn't cost you an extra penny. Our recommended re-order feature makes light work of managing and re-ordering your stock.

### People Management

Our easy to use software has in-built employee performance analysis which enables you to set and monitor sales and performance targets

## About Us

Established in 1991, the key to our ongoing success has been the determination to nurture relationships with suppliers and our nationally recognised loyal business partners. With a supply chain network stretching across the UK we continue to provide ongoing innovative and progressive solutions that deliver growth, irrespective of scale.
